I. Education:

Ph.D. Political Science, Indiana University, 1977

M.A. Mathematics, Indiana University, 1974

B.A. Political Science and Mathematics, Indiana University 1971

II. Areas of Specialization

Methodology

Natural Language Processing, Computational Modeling and Machine Learning, Time Series Analysis, Mathematical Statistics.

International Relations

International Conflict and Crisis Forecasting, Middle East Politics.

III. Professional Experience

Senior Research Scientist, Parus Analytics, July 2013 - present

Professor, Political Science, Pennsylvania State University, 2010-2013

Professor, Political Science, University of Kansas, 1991-2009

Associate Professor, Political Science, University of Kansas, 1988-1991

Associate Professor, Political Science, Northwestern University, 1982-1988

Assistant Professor, Political Science, Northwestern University, 1976-1982

Visiting Positions:

Peace Research Institute, Oslo, Spring 2012

Bir Zeit University, West Bank, Spring 1996

American University in Cairo, Summer 1993

University of California at Davis, Winter-Spring, 1982

U.S. Naval Postgraduate School, Summer 1979, Summer 1982

Richardson Institute for Peace and Conflict Studies, University of Lancaster, 1979-80

Graduate Research Assistant, Center for International Policy Studies, Indiana University, 1974-76

Associate Instructor, Mathematics and Computer Science, Indiana University, 1970-1973

IV. Research Skills

Languages: Arabic (basic speaking, reading); French (good speaking, reading); Norwegian (basic reading); Spanish (basic reading)

Mathematics: graduate-level mathematical statistics, nonparametric statistics, analysis of variance, econometrics, and mathematical modeling

Computer: C/C++, Python, Perl, Java, Pascal, Fortran, assembly. Extensive programming experience, including parallel computer, Macintosh, and Unix systems. R and Stata statistical programming.

V. External Grants and Fellowships

“A Method for Leveraging Public Information Sources for Social Science Research.” (with Thomas Carsey, University of North Carolina at Chapel Hill). National Science Foundation SMA-1338470 and SES-1259266. 2013-2015. \$238,419

“Collaborative Research: Automated Real-Time Production of Political Indicators.” (with Michael Ward, Duke University and Jay Ulfelder). National Science Foundation SES-1259190 and SES-1259266. 2013-2014. \$400,000

Fulbright Research Grant, Peace Research Institute, Oslo, Norway. Spring, 2012.

“Collaborative Research: Development of a Technology for Real Time Ex Ante Forecasting of Intra and International Conflict and Cooperation.” (with John Freeman, University of Minnesota and Patrick Brandt, University of Texas, Dallas). National Science Foundation SES-0921027 and SES-1004414. 2010-2012. \$188,330

“EAGER: The Creation and Classroom Application of a Web Portal for Social Science Methods Education” (with William Anderson, University of South Dakota, Michelle Dion, McMaster University, Janet Box-Steffensmeier, Ohio State University and William Jacoby, University of Michigan). National Science Foundation SES-0968723. 2010-2011. \$207,863

“MID4: Updating the Militarized Dispute Data Set 2002-2010.” (with Glenn Palmer and Scott Bennett, Pennsylvania State University). National Science Foundation SES-0924240. 2010-2011. \$316,140.

“Competitive Development of Applied Political Forecasting Models.” Integrated Crisis Early Warning System (ICEWS) initiative, U.S. Department of Defense Advanced Research Projects Agency.

Phase I (2007-2008) \$249,698.

Phase II (2009-2010) \$471,128.

Phase III (2010-2011) \$120,000.

“Support for Conferences and Mentoring Activities in Political Science.” (with Janet Box-Steffensmeier, Ohio State University). National Science Foundation SES-0720343. 2008-2010. \$245,388.

“Data Collection on Mass Killings of Non-combatants.” Scientific Applications International Corporation/Political Instability Task Force. 2003-2010 (Kansas): \$490,425. 2012-2013 (Penn State): \$114,404

- “Improving the Efficiency of Militarized Interstate Dispute Data Collection using Automated Textual Analysis.” (with Scott Bennett and Glenn Palmer, Pennsylvania State University, and Paul Diehl, University of Illinois). National Science Foundation. SES-0719634, 2007-2009. \$30,700
- “Collaborative Research: The Dissent/Repression Nexus in the Middle East.” (with Christian Davenport, Deborah J. Gerner, Craig Jenkins, Katherine Myers, Jillian Schwedler, and Mary Ann Tetreault). National Science Foundation Human and Social Dynamics Initiative SES-0527564. 2005-2008. \$173,995.
- “Collaborative Research: Computational Methods for the Analysis of Political Event Data.” (with Valerie Hudson, Brigham Young University). National Science Foundation SES-0455158. 2005-2006. \$76,926. URL: <http://www.nkss.org/>
- “Automated Coding of Event Data for Forecasting Genocide and Mass Killings”, Scientific Applications International Corporation/Political Instability Task Force. 2003-2005. \$149,123.
- “Political Monitoring of Palestine.” (with Deborah J. Gerner) Swiss Peace Foundation FAST Project. 2002-2004. \$34,000. URL: <http://www.swisspeace.org/fast/mideast.htm>
- Fulbright Lecturing Grant, Bir Zeit University, West Bank. 2002-2003. (formally awarded but indefinitely delayed by U.S. State Department due to political instability in region).
- “Analyzing the Dynamics of International Mediation Processes.” (with Deborah J. Gerner) National Science Foundation SES-0096086. 2001-2003. \$126,875.
“Research Experience for Undergraduates” supplement, \$21,216
- “Cluster Analysis and Hidden Markov Modeling for the Forecasting of Political Instability.” Joint Warfare Analysis Center, U.S. Department of Defense. 2000. \$86,241
- “Translation of KEDS Program to Unix/C Environment”, Scientific Applications International Corporation/State Failures Project. 1999-2000. \$61,132.
- Fulbright Lecturing Grant, Bir Zeit University, West Bank. 1996. \$36,820.
- “Development of Machine-Coded Event Data Techniques for the Analysis of Political Behavior.” (with Deborah J. Gerner) National Science Foundation SES-9410023. 1994-1996. \$70,000.
- “Generating Events Data using Machine-Assisted Coding and Regional News Sources.” (with Ronald Francisco and Deborah J. Gerner) National Science Foundation (subcontract from Data Development in International Relations project). 1991-1993. \$39,000.
- “Short Term Prediction of International Events using Pattern Recognition.” National Science Foundation award 8910738. 1989-1991. \$56,000.
- “Institutional Fellowship Grant: Borders and International Cooperation in Africa.” (with Caroline Bledsoe) John D. and Catherine T. MacArthur Foundation. 1988. \$797,000
- “Conference on Artificial Intelligence and Psychological Approaches to Foreign Policy Decision Making.” (with Charles Hermann and Margaret Hermann) Midwest Consortium for International Security Studies. 1987. \$20,000

“A Computer Laboratory for Undergraduate Study in Political Science.” (with Kenneth Janda)
National Science Foundation Instructional Scientific Equipment Program. 1981-1982
\$24,900

“Collaborative Research in the Study of N-Nation International Interactions.” (with Dina A.
Zinnes) National Science Foundation award 8025053. 1982-83. \$58,000

“Development of a Freshman-Sophomore Course in Mathematical Models in the Social
Sciences.” (with Carole J. Uhlaner) Mellon Foundation. 1979. \$12,500

“The Effects of Major Power Arms Transfers on International Behavior in the Arabian Sea Area.”
NATO/NSF Postdoctoral Fellowship. 1979-80. \$14,500

Invited Papers and Presentations since 2006

“Generating Event Data: A Comparative Study of Topic Model, Pattern-based and Full Parsing Methods” New Directions in Analyzing Text as Data, New York University, October 2015.

“Evaluation of Automated Event Data Coders using Open Resources” and “Open Event Data and the Prospects for Near-Real-Time Forecasting Models” Peace Research Institute, Oslo. April, 2015.

“Technical Political Forecasting” and “Introduction to Event Data Analysis using Open Data Sets” Department of Political Science and Project Mosaic, University of North Carolina at Charlotte, February 2015.

“Forecasting Political Conflict” and “Open Event Data Analysis” Department of Political Science, University of Wisconsin, Madison, November 2014.

“Contemporary Event Data Analysis” and “New Directions in Technical Political Forecasting.” Institute for Security Studies, Pretoria, South Africa, May 2014.

“Forecasting Political Events.” Joint Meetings of the Conflict Research Society and European Network for Conflict Research (ENCoRe), University of Essex, UK, September 2013.

“Quantitative Forecasting of Political Conflict.” U.S. State Department Bureau of Intelligence and Research Workshop on Data-Driven Forecasting and Quantitative Analysis, April 2013.

“Automated Coding of Political Events from a Very Large Text Base.” New Directions in Analyzing Text as Data, Harvard, October 2012. (with Jay Yonamine)

“Seven Deadly Sins of Contemporary Quantitative Analysis.” Theme Panel: A Sea Change in Political Analysis? American Political Science Association, Washington, September, 2010. Additional invited presentations at Canadian Political Science Association (keynote), Waterloo, Ontario (May 2011), University of Kentucky (November 2011), University of Massachusetts, Amherst (November 2011) and Indiana University (October 2012)

“Fragmented Sovereignty: From Medieval Decentralization to Nation-States and Back Again.” Graduate Institute of International and Development Studies, Geneva, October 2012.

“Event Data Methodologies for Political Forecasting.” Workshop on Forecasting Political Instability, Council on Foreign Relations, Washington DC, March 2011; U.S. Holocaust Memorial Museum, September 2012.

“Assessing the Predictability of Conflict in the Levant using Bayesian Model Averaging.” Presented at the conference “After the Arab Spring: Democratization and Regional Security,” Michigan State University, April 2012.

“Statistical Forecasting of Conflict in the Eastern Mediterranean using a Long Event Time Series.” Presented at the “NSF Conference on New Horizons in the Analysis of the Middle East,” University of South Carolina, October 2011.

- “The Implications of Fragmented Sovereignty on the Future of Terrorism.” Presented at the “Conference on the Future of Terrorism (II),” International Center for the Study of Terrorism, Pennsylvania State University, October 2011.
- “Automated High-Volume Production of Near-Real Time Event Data.” New Methodologies Conference, Princeton University, February 2011 and Florida State University, February 2011.
- “Media Coverage and Political Behavior.” Text as Data Conference. Kellogg School of Management, Northwestern University. March 2010.
- “Trends and Challenges in Political Event Data Analysis.” Third International Conference on Computational Cultural Dynamics. University of Maryland Institute for Advanced Computer Studies. December 2009.
- “Natural Language Processing Techniques for Generating Political Event Data from English-Language News Reports.” Conference on Analyzing Debates in Democracy, Vrije Universiteit Amsterdam, November 2008.
- “Pattern Recognition Techniques for Early Warning using Machine-Coded Event Data.” University of North Carolina, October 2008.
- “Geocoding the Political Instability Task Force Worldwide Atrocities Dataset.” Conference on Disaggregating the Study of Civil War and Transnational Violence, University of Essex, November 2007.

[38 additional invited papers 1974-2005]

Papers Presented at Professional Meetings since 2006

- “A Metric for the Comparison of Event Data Set with an Application to Evaluating Multiple-Source Data Sets.” European Political Science Association meetings, Vienna, June 2015.
- “Three’s a Charm?: Open Event Data Coding with EL:DIABLO, PETRARCH, and the Open Event Data Alliance.” International Studies Association, Toronto, March 2014. (with John Beieler and Muhammed Idris)
- “Automating the Extraction of Political Indicators from Text Sources on the Web: Event Data.” International Studies Association, Toronto, March 2014.
- “Improving Forecasts of Improving Forecasts of International Events of Interest.” European Political Science Association meetings, Barcelona, June 2013. (with Bryan Arva, John Beieler, Ben Fisher, Gustavo Lara, Wonjun Song, Marsha Sowell and Sam Stehle)
- “Detecting the Dimensions of News Reports using Latent Dirichlet Allocation Models.” European Political Science Association meetings, Berlin, June 2012 and International Studies Association, San Francisco, April 2013. (with Benjamin Bagozzi)
- “Racing Horses: Constructing and Evaluating Forecasts in Political Science.” Twenty-Eighth Political Methodology Summer Conference, Princeton University, July 2011. (with Patrick Brandt and John Freeman)

- “Forecasting Political Conflict in Asia using Latent Dirichlet Allocation Models.” European Political Science Association meetings, Dublin, June 2011.
- “Separating the Wheat From the Chaff: Application of Two-Step Support Vector Machines to MID 4 Text Classification.” Midwest Political Science Association, Chicago, April 2011. (with Stephen Landis, Vito D’Orazio and Glenn Palmer)
- “Predicting Intra-State Conflict Onset: An Events Data Approach using Euclidean and Levenshtein Distance Measures.” Midwest Political Science Association, Chicago, April 2011. (with Vito D’Orazio and Jay Yonamine)
- “Fragmented Sovereignty: From Medieval Decentralization to Nation-States, or There and Back Again.” International Studies Association, Montreal, March 2011 (with Cristian Cantir)
- “Automated Production of High-Volume, Near-Real-Time Event Data.” American Political Science Association, Washington, September, 2010.
- “Neomedievalism in the Twentyfirst Century: Warlords, Gangs and Transnational Militarized Actors as a Challenge to Sovereign Preeminence.” International Studies Association, New Orleans, February 2010. (with Cristian Cantir)
- “Personality, Popularity, and Prosperity: Exploring Covariates of Israeli Foreign Policy Behavior (1979-2008) Using Discrete Sequence Pattern Recognition.” American Political Science Association, Toronto, September 2009. (with Valerie M. Hudson and Cristian Cantir)
- “Real Time, Time-Series Forecasting of Political Conflict.” International Studies Association, New York, February 2009. (with Patrick Brandt and John Freeman)
- “Automated Detection of Reports of Militarized Interstate Disputes Using the SVM Document Classification Algorithm.” American Political Science Association, Boston, September 2008. (with Glenn Palmer and Mehmet Emre Hatipoglu)
- “Coding Sub-State Actors using the CAMEO (Conflict and Mediation Event Observations) Actor Coding Framework.” International Studies Association, San Francisco, March 2008. (with Ömür Yilmaz, Deborah J. Gerner and Dennis Hermerick)
- “Sub-state Actor, Temporal and Geographical Dimensions of the Dissent-Repression Relationship: Evidence from the Middle East.” American Political Science Association, Chicago, September 2007.
- “Inductive Event Data Scaling using Item Response Theory.” International Studies Association, Chicago, March 2007 and at the Twenty-Fourth Political Methodology Summer Conference, Pennsylvania State University, July 2007.
- “A Conditional Probability Analysis of Pattern-Based Models Applied to Event Data in the Israeli-Palestinian Conflict.” American Political Science Association, Philadelphia, September 2006. (with Valerie M. Hudson)

[64 additional papers presented at professional meetings 1974-2005]

VII. Teaching

Courses taught 2000-2012:

Introduction to International Relations

United States Defense Policy

International Conflict

International Conflict (graduate)

[five additional IR courses taught 1976-1999]

Research Methods in Political Science (graduate)

Research Methods in International Studies (graduate)

Multivariate Statistics for Political Research (graduate)

Event Data Analysis (graduate)

[four additional methodology courses taught 1976-1999]

Teaching Awards:

Phi Kappa Phi, 2005 (multi-disciplinary honorary society; three KU faculty are recognized each year)

W.T. Kemper Award for Teaching Excellence, 1999 (KU university-level award for graduate teaching)

H.O.P.E. Award Finalist, 1998 (KU senior class award for undergraduate teaching)

External Instructional Presentations

“Predictive Analytics” (two-day intensive workshop). Odum Institute, University of North Carolina, June 2014.

“Forecasting Political Conflict.” University of Konstanz, Germany. (graduate lecture series) October 2013.

“Big Data: Separating the Hope from the Hype” (two-day intensive workshop). Odum Institute, University of North Carolina, May 2013.

“A Practical Guide to Generating Political Event Data using Automated Methods” University of Kentucky, November 2011; Indiana University October 2012.

“Introduction to Contemporary Text Analysis”, “Event Data and Conflict Forecasting”, “Automated Event Coding with TABARI.” Tools for Text Workshop, University of Washington (Seattle), June 2010 (co-organizer, with John Wilkerson; NSF-funded)
